

Attachment #12 – Racial Disparity Assessment Summary

In this zip file, there are 4 components of the CoC's racial disparity assessment and one summary.

(1) WI-500 Racial Disparity WI Assessment Analysis – Summary

This document contains a summary of each component and a description of the CoC's next steps.

(2) Racial Disparity WI Assessment

This document is a spreadsheet with the results of the analysis conducted using census data and HMIS data.

(3) Gaps and Needs Survey – Client Data Summary 2018

This document is the survey results from the client survey conducted in 2018.

(4) 2019 Advocacy Sheet - Brown

This document is an example of a local homeless coalition advocacy sheet prepared by the CoC.

(5) Domestic Abuse Program 2018 recap

This document is a report compiled by the WI Department of Children and Families on data collected in conjunction with funding received by victim service providers.

Attachment #12: Racial Disparity Assessment Summary

The WI Balance of State CoC has completed and/or reviewed engaged in 4 different kind of assessments related to racial disparity.

(1) Annual Gaps & Needs Survey

The Balance of State CoC Gaps & Needs committee created a survey, including race and ethnicity. The surveys were administered over a 2 month period (Oct. 2018 – Dec. 2018), across the entire CoC and available to all people enrolled in housing programs, in shelters or assessed through coordinated entry. The survey was not required.

In the attached summary document, question 29-30 specifically ask the person completing the survey “what race do you most identify with?” and “what ethnicity do you most identify with?”

Of the 397 people that completed the survey:

- 69.77% identified as White or Caucasian
- 13.6% identified as Black or African American
- 5.29% identified as American Indian or Alaskan Native
- Asian, Native Hawaiian or Other Pacific Islander, Biracial, Multiracial, or other each had less than 4%

Of the 397 people that completed the survey:

- 86.54% identified as non-Hispanic
- 6.86% identified as Hispanic
- 6.6% preferred not to answer

The committee also has more detailed, analyzable (sortable) data, as well as qualitative data not included in the summary document. The Gaps and Needs committee reported on the results at the February 2019 CoC membership quarterly meeting. The group is currently working on the 2019 survey questions & evaluating access to the survey to ensure the greatest response.

The results summary document is included in this attachment.

(2) HMIS data

The CoC Director and HMIS lead worked together to generate an HMIS report for the date range of 10/1/17 – 9/30/18. Data was collected from anyone with an entry/exit, a service, or an outreach contact. The populations were based on the 2010 census data. There are 14 tabs of data. Where the county is “STATE” it is the statewide numbers

Tab #1 – By County

The key columns include: Pop% (the % of the overall population that identifies as that race), % of Homeless (the % of people served in SP that year that identify as that race), and % of Population That Is Homeless (the % of the overall population that was served in SP). The % Difference column is mainly for sorting to find the highest/lowest differences between the % of the population of the race in the county and the % of homeless people of that race in that county.

Key Results:

In Grant County:

- Black or African Americans make up 1.14% of the general population, but they make up 42.86% of the homeless population. 2.04% of Black or African American people in Grant County are homeless.
- White people in Grant County make up 96.16% of the general population, but they make up only 35.71% of the homeless population. 0.02% of white people in the CoC are homeless.
- A Black or African American person in Grant County is 102 (2.04/0.02) times more likely to become homeless compared to a white person.

In Portage County: has 14 Native Hawaiian or Other Pacific Islanders according to the census and 6 of them are homeless, meaning that 42.86% of their population is homeless.

In Pierce County: has 232 Black or African Americans according to the census and 96 of them are homeless, meaning that 41.38% of their population is homeless.

Tab #2 – By CoC

This tab contains the same structure as Tab #1 but for the whole CoC.

Key Results:

In the WI Balance of State CoC (WI-500):

- Black or African Americans make up 1.40% of the total population, but 17.15% of the homeless population. 7.36% of Black or African Americans in the CoC are homeless.
- White people in the CoC make up 90.51% of the total population, but 64.81% of the homeless population. 0.43% of white people in the CoC are homeless.
- A Black or African American person in the CoC is 17 times more likely to become homeless compared to a white person.

Tab #3 – By County & Project type (PT)

This tab contains the same structure as Tab #1 but includes columns for project types – including emergency shelter and permanent housing.

Key Results:

In Kenosha County:

- Black or African American clients account for 41.96% of the Emergency Shelter clients, but only account for 11.11% of the PSH clients and 24.21% of the RRH clients

Tab #4 – By CoC & Project type (PT)

This tab contains the same structure as Tab #3 but for the whole CoC.

Key Results:

In the WI Balance of State CoC (WI-500):

- Black or African American clients make up 19.78% of ES clients, but only 11.33% of PSH clients and 18.50% of RRH.

Tab #5 – Percentage Homeless by County

This tab provides context for the percentage of the overall population of the county that is homeless.

Key Results:

In Menominee County, the homeless percentage is 4.91% homeless – almost 1 in 20 people.

Tab #6 – Percentage Homeless by CoC

This tab contains the same structure as Tab #5 but for the whole CoC.

Key Results:

In the WI Balance of State CoC (WI-500), the homeless percentage is 0.58% homeless.

Tab # 7 – County Census

This tab contains the 2010 Census data used on the other tabs.

Tab #8 – CoC Census

This tab contains the same structure as Tab #7, but adds together the counties within coalitions that make up the WI Balance of State CoC.

Tab #9 – HUD CoC HMIS

This tab contains all the clients in HMIS broken down by race and CoC.

Tab #10 – HMIS

This tab contains all the clients in HMIS broken down by race and county.

Tab #11 – Returns to Homelessness

This tab contains the data from System Performance Measure #2 with race added to it.

Key Results:

In the WI Balance of State CoC (WI-500):

- The overall return to homelessness within 2 years is 24.96%.
- Asian clients return to homelessness within 2 years 37.21% of the time
- American Indian or Alaska Native clients return to homelessness within 2 years 28.93% of the time
- 2 or more Races clients return to homelessness within 2 years 28.64% of the time
- Black or African American clients return to homelessness 25.67% of the time

- White clients return to homelessness within 2 years 24.03% of the time

Tab #12 – Length of time (LOT) by CoC

This tab contains data showing the average amount of time clients spent in programs (from entry to exit, or to housing move-in date).

Key Results:

In the WI Balance of State CoC (WI-500):

- Clients with 2 or more Races spent the longest amount of time in homeless programs at 89 days
- American Indian or Alaska Native client's length of time is 82 days
- White client's length of time is 80 days
- Black or African American client's length of time at 75 days.

Tab #13 – Length of time (LOT) by County & Project type (PT)

This tab contains the same structure as Tab #11 but broken down by project type.

Key Results:

The longest average was for American Indian or Alaska Native clients in PH - Housing with services (no disability required for entry) at 457 days, followed by most of the Transitional Housing clients (for programmatic reasons).

Tab #14 – Employment & Income Growth

This tab contains the data from System Performance Measure #4 with race added to it.

Key Results:

In the WI Balance of State CoC (WI-500):

- The overall percent of clients who increased their total income was 24.37% for stayers and 44.68% for Leavers.
- 2 or more Races clients increased their total income 50.00% of the time for both stayers and leavers.
- Black or African American clients increased their total income 27.45% of the time for stayers and 46.24% of the time for leavers.
- White clients increased their total income 22.18% of the time for stayers and 44.16% of the time for leavers.

The HMIS report is included with this attachment.

(3) Advocacy

Each year, the CoC Director creates a 1 page document for state and federal legislators on the homelessness data in their districts. This includes annualized data and point-in-time data. There is a demographic section with bar graphs on age, gender, race & ethnicity that show the difference between the general population in their district and the homeless population. This will be adjusted next year to include the poverty population as well.

In 2018, cumulative data collected in HMIS by emergency shelter and transitional programs in Wisconsin shows:

- 50.9% are Caucasian
- 38.2% are Black or African American
- 0.6% are Asian
- 5.7% are multi-racial
- 3.5% are Native American

In 2018, the total population in Wisconsin was:

- 87.3% are Caucasian
- 6.7% are Black or African American
- 2.9% are Asian
- 1.9% are multi-racial
- 1.2% are Native American

Now, specifically looking at one local homeless coalition, we can drill down and see how race is reflected in the total population versus the homeless population as well.

In 2018, cumulative data collected in HMIS by emergency shelter and transitional programs in Brown County shows:

- 49% are Caucasian
- 29% are Black or African American
- 0.5% are Asian
- 9% are multi-racial
- 12% are Native American

In 2018, the total population in Wisconsin was:

- 88% are Caucasian
- 3% are Black or African American
- 3% are Asian
- 2% are multi-racial
- 3% are Native American

(4) Domestic Violence Data

End Domestic Abuse WI is the statewide domestic violence coalition and serve on the CoC Board of Directors. End Abuse shared with the CoC the “Domestic Abuse Program Client and Service Data” report. from October 1, 2017 – September 30, 2018. Data was collected by the WI Department of Children and Families (DCF) about clients served between 10/1/18 – 9/30/19 in conjunction with the funding they provide to 62 nonprofit agencies (with 42 providing shelter), one county agency and all eleven federally recognized tribes for domestic abuse services.

Based on the demographic information collected on persons receiving domestic abuse services:

- 48% identified as white
- 23.10% identified as Black/African American
- 4.5% identified as Native American
- 3.4% identified as Asian/Pacific Islander
- 10.3% identified as other or did not report

Note: 2.3% served were Hmong/Southeast Asian

The report is included with this attachment.

(5) Next Steps

In November 2018, the CoC hosted an award winning journalist & facilitator on understanding racial disparities from Nurturing Diversity at our November quarterly meeting. This event began the process of expanding awareness of racial disparity and homeless services.

In August 2019, the CoC asked HMIS lead staff to present at our August quarterly meeting. This event helped launch into the next phase of data analysis to determine the extent of the racial disparity in the BOS, impact on homeless outcomes & development of strategies to address the issue at the coalition & CoC-level.

Additional data will be reviewed in the next 12 months:

- a) System performance measures from a race and ethnicity lens at the coalition and CoC-level
- b) CoC and ESG-funded project outcomes from a race and ethnicity lens
- c) Additional analysis on the coordinated entry prioritization list data including number of referrals, length of time on the list, percentage of housed on a coalition and CoC-level

Q1 What has been your journey in life up to this point? Feel free to share as much or as little as you'd like.

Answered: 363 Skipped: 36

Q2 What is your vision or dream for your life? What short-term and/or long-term goals would you like to achieve?

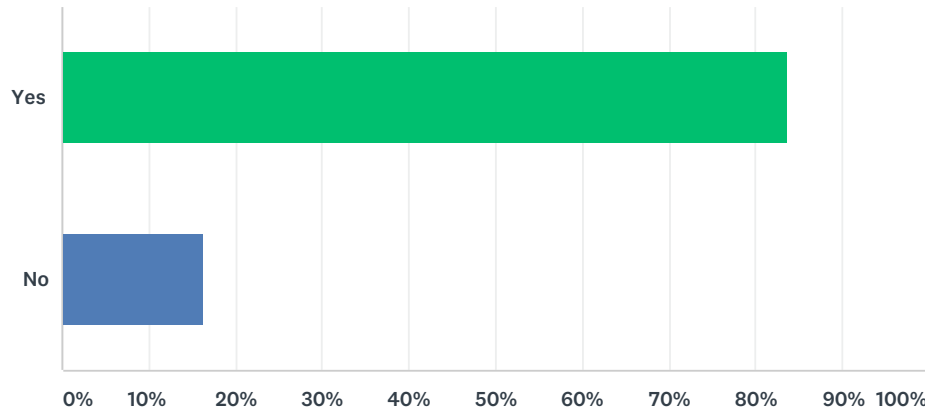

Answered: 382 Skipped: 17

Homelessness in Wisconsin

The Balance of State Continuum of Care is a 501c3 non-profit organization that provides leadership to local homeless coalitions in 69 counties across the State of Wisconsin, excluding Dane, Milwaukee, and Racine counties.

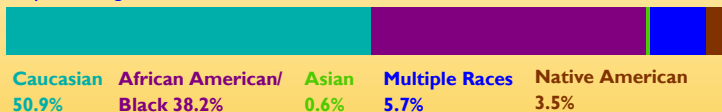

Annualized Data Cumulative data by providers serving the homeless. Totals represent those served in emergency shelters and transitional housing programs between January 1, 2018 and December 31, 2018. Only includes data reported in HMIS.

2018

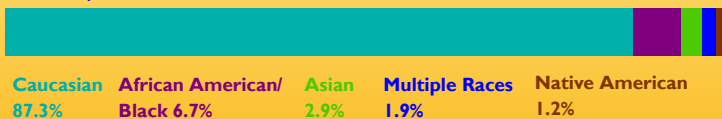

20,142

people experienced homelessness

Experiencing Homelessness

Total Population

Homelessness in the Balance of State

59% of Wisconsin's homeless population

46% have a disability

715 veterans

Point-In-Time (PIT) Data A "snapshot" count of those experiencing homelessness on one night. Wisconsin does this count during the last week of January and the last week of July each year. Totals represent unsheltered and those served in emergency shelters and transitional housing programs on Data is from January 23, 2018. Includes both HMIS and non-HMIS data.

PIT

4,907 people were homeless in Wisconsin

382 were unsheltered

527 had been homeless for over one year

3,147 (64%) were from the Balance of State CoC

127 were unsheltered

285 had been homeless for over one year

HMIS data was provided by the Institute for Community Alliances, www.icalliances.org

SOLUTIONS

Eviction Prevention & Shelter Diversion

Increase funding to keep people out of the homeless response system through eviction prevention & diversion programs.

Emergency Shelters

Increase funding for emergency shelter operations, case management to help people in shelter find jobs, & encourage shelters to responsibly exit people into stable housing.

Housing Programs

Increase flexible funding for homelessness assistance programs. Create funding for housing navigation, a critical service that matches people experiencing homelessness with rental housing.

Landlord Assistance

Create a loan program to assist owners in renovating existing units for use as affordable housing.

Local Homeless Coalition: Brown County

This local homeless coalition includes all of Brown County. According to the US Census Bureau (2017), the estimated population is 262,052 with 24% under the age of 18.

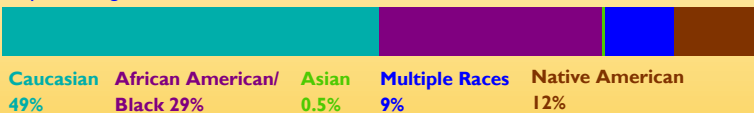

Annualized Data Cumulative data by providers serving the homeless. Totals represent those served in emergency shelters and transitional housing programs between January 1, 2018 and December 31, 2018. Only includes data reported in HMIS.

2018

Domestic Abuse Program Client and Service Data October 1, 2017 – September 30, 2018

Overview

The Department of Children and Families provided funding to 62 nonprofit agencies (with 42 providing shelter), one county agency, and all eleven federally-recognized tribes for domestic abuse services. Total DCF funding in CY 2018 was \$14,721,445.

Shelter

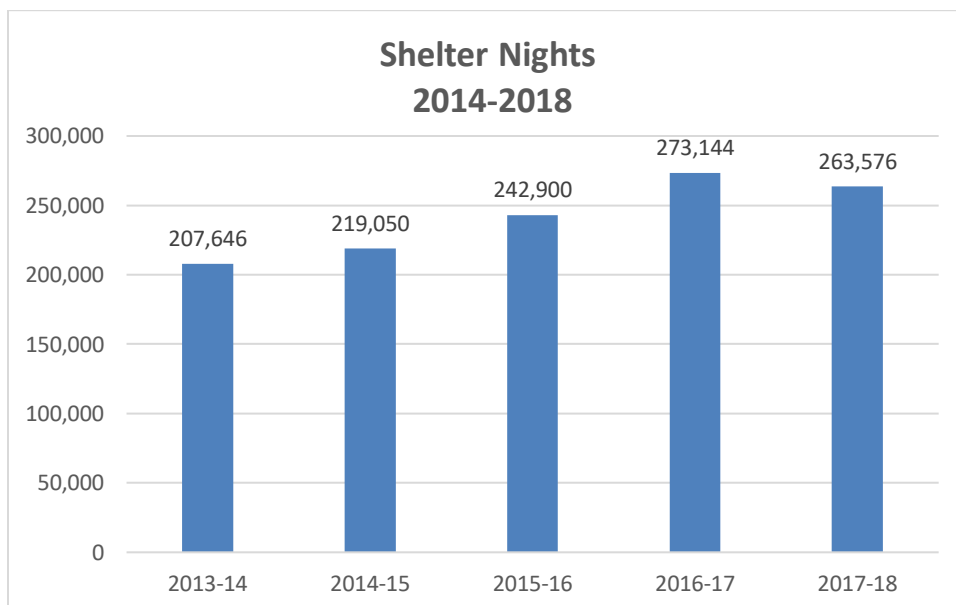

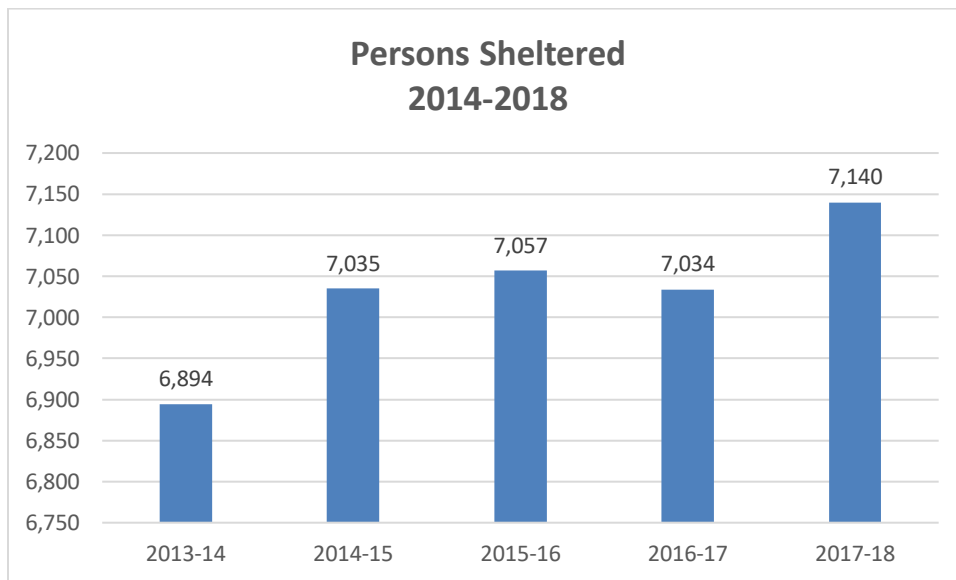

7,140 persons received safe shelter:

- 3,791 women
- 3,201 children
- 113 men
- 35 other/not reported

Comments and Trends

- This is a slight increase from the 2016-17 reporting period (106 more people, or a 1.5% increase).
- The average stay *for all persons* receiving residential services was 36.9 nights. This is a decrease from 39 nights in the previous reporting period. The average stay *at shelter programs* (excluding persons receiving hotel/motel stays in nonresidential programs) was 38.8 nights.
- The average stay for men in shelter programs was 27.9 nights.
- The average stay at individual shelter programs ranged from 15.8 nights to 82.6 nights.
- The average stay at shelter programs by region:
 - Northern: 39.5 nights
 - Northeast: 34.0 nights
 - Southern: 43.6 nights
 - Southeast: 32.2 nights
 - Western: 44.8 nights
- Approximately 44.8% of persons staying in shelter are children/youth (under age 18). By contrast, children/youth comprised about 50% of those in shelter in 2008, and about 56% of those in shelter in 2000.
- There were 24,373 requests for shelter that went unfulfilled because the shelter was full. This number reflects *adults only* and does not include children. This number includes duplication because survivors can call a single shelter more than once or call more than one shelter. This is an increase of 45.8% from the previous reporting period.
- Out of 42 shelter programs, 34 reported turning away persons because the shelter was full.

- As survivors are staying longer in shelter, there are fewer beds for additional survivors, so fewer survivors can be served, and more requests for shelter go unmet.
- Many DV shelter programs report being “at capacity” for most of the year, which means not being able to offer a person a shelter bed or room. Several shelters also report being “over capacity”, which may involve putting a survivor and children temporarily in common rooms, on couches, or even available floor space.
- The number of persons receiving shelter has fluctuated over the last five years. The number of shelter nights has increased most years, with a decrease in the last reporting period.

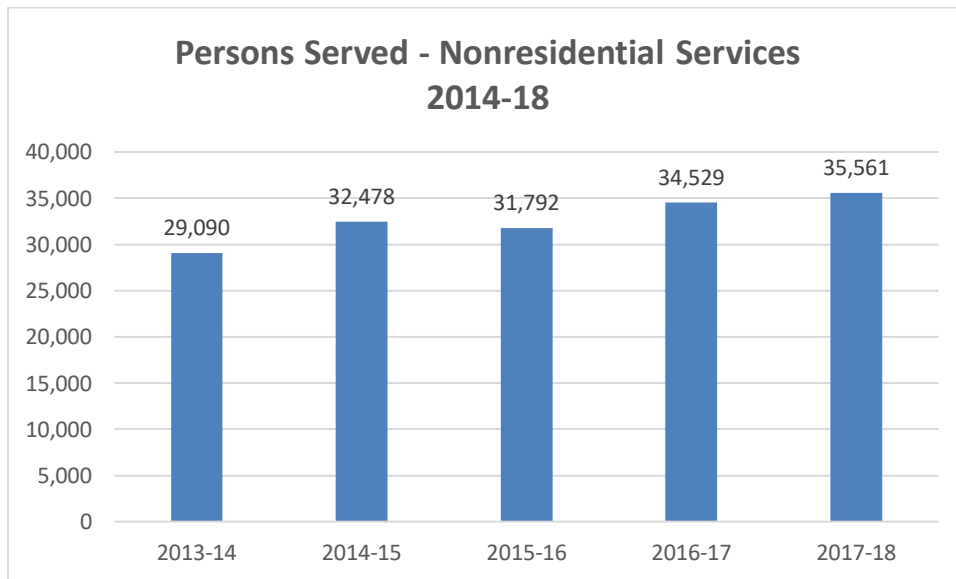

Nonresidential Services

35,361 persons received supportive advocacy, counseling, and other community-based services.

- 25,570 women
- 5,939 children
- 3,389 men
- 463 other/not reported

Comments and Trends

- The number of persons receiving nonresidential services has increased by 2.4% from the previous reporting period.
- This number includes only the persons who did not also receive shelter.
- More men are receiving nonresidential services each year.
- Programs consistently report that survivors present with more complex and intense needs, requiring longer, more time-consuming, intensive advocacy.
- Nonresidential service numbers have fluctuated over the last five years.

Total Persons Served

- Shelter – 7,140
- Nonresidential – 35,361
- Total – 42,501

Other Services

Hotline

Calls include crisis calls, peer support calls, safety planning, domestic violence education, technical assistance, information and referral. They do not include business calls.

Total Hotline calls – 119,838

Community Education

Domestic abuse programs offer community education and training opportunities to organizations and the general public about domestic violence. This could be training for law enforcement, health care providers, school personnel, faith communities; hosting an information table at a community event; or using creative social networking strategies. Domestic abuse programs also offer developmentally-appropriate presentations in local schools on healthy relationships, nonviolent conflict resolution, and the prevention and early intervention of bullying and dating violence. These presentations range from one-time only presentations to fully developed curricula on healthy relationships that span several weeks or an entire semester.

Adult/General Public Presentations

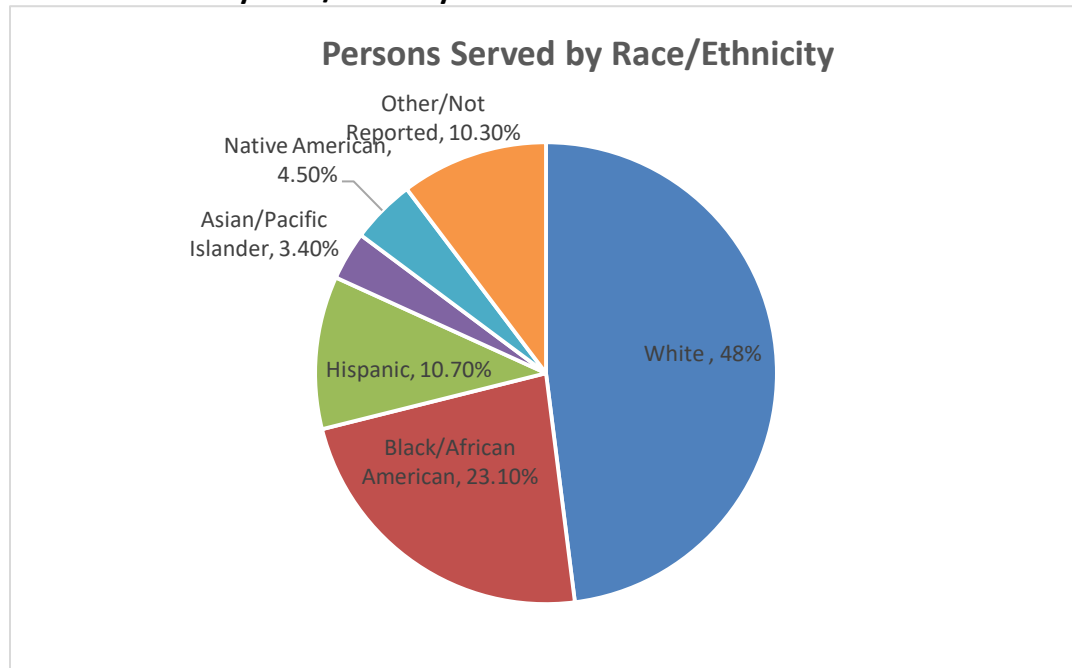

2,117 presentations, reaching 69,768 persons

Youth Targeted Presentations

3,398 presentations, reaching 93,683 persons

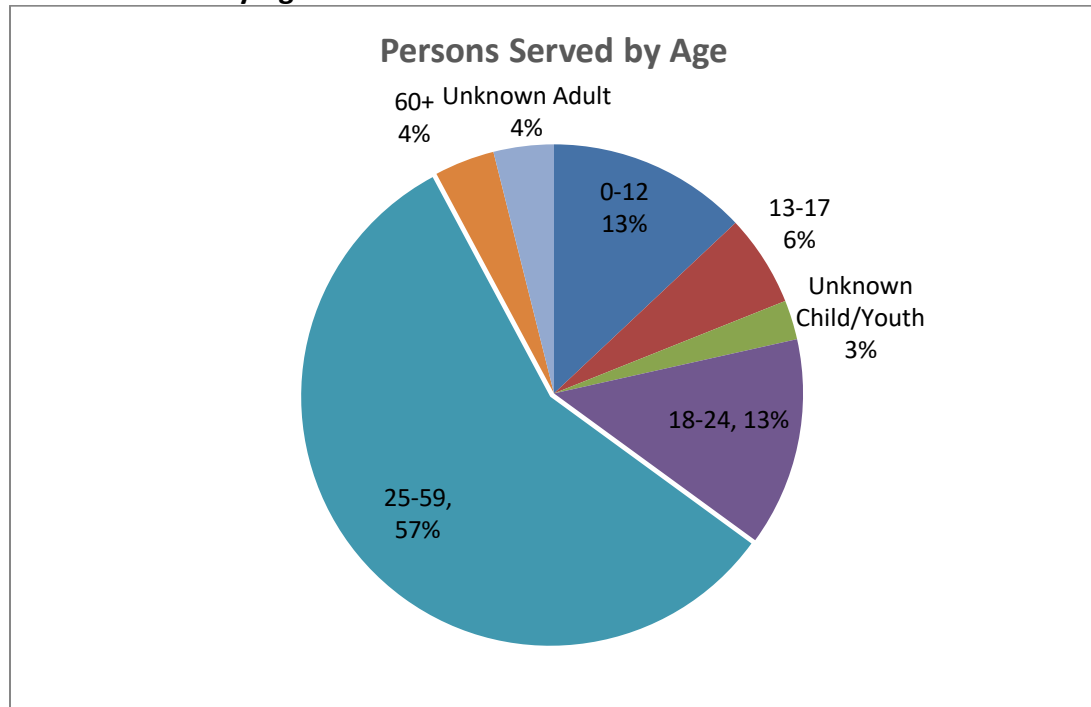

Demographic Information – Persons Receiving Domestic Abuse Services

Persons Served by Race/Ethnicity

Note: 2.3% of total persons served are Hmong/Southeast Asian.

Persons Served by Age

Meeting Survivors' Needs

Survivors receiving services in Wisconsin domestic abuse programs have the opportunity to provide confidential feedback on the services they received. In response to two questions answered by 10,047 survivors in the reporting period:

- 9,470 (94.2%) responded that as a result of receiving services, they know more ways to plan for their safety.
- 9,395 (93.5%) responded that as a result of receiving services, they know more about community resources.

Research has demonstrated that increasing survivors' knowledge of safety planning and community resources leads to their increased safety and well-being over time.

Challenges Faced by Domestic Abuse Programs

Finding Safe and Affordable Housing for Survivors

Finding safe and affordable housing for survivors continues to be a major challenge throughout the State. Housing authorities have long waiting lists, leading to longer stays in shelter and fewer available beds for others seeking safety. If affordable housing can be located, often the conditions are so poor that it is a danger to survivors and their families. Survivors with barriers such as poor credit, an eviction history, unstable employment, or limited income face enormous challenges in securing housing, even when they have managed to obtain housing assistance or vouchers.

*We are often stymied in helping victims find safe and affordable housing. There is a serious lack of low-income housing in our area. While we partner with WestCAP (Community Action Agency) to assist clients with low-cost housing, there are many barriers. If a victim also has an eviction on their record, a low credit rating score, or a criminal record they are often denied housing. While we do everything we can, such as writing appeal letters on their behalf, the search for safe, affordable housing is daunting. **The Bridge to Hope, Menomonie, WI***

Shelters At or Near Capacity

Domestic abuse shelters continue to be full or "at capacity" almost continuously. Many shelters have long wait lists of survivors requesting safe shelter. Impacting shelter capacity is the monumental challenge of locating affordable, safe housing for survivors and their families. Additionally, hiring reliable, skilled individuals is also becoming more challenging. This results in extended vacancies in positions, reducing the ability of domestic abuse programs to provide the consistent level of service and support they strive to maintain.

The greatest challenge faced at InCourage in this reporting period is that the shelter has been at or near capacity since January 2018. There were times that there were 40 people in shelter, 20 of them children. There is not enough staff to meet the needs of both residential and outreach (non-residential) victims who need services, not to mention answering phone calls and other duties that need to be completed. It is also challenging, particularly on 2nd shift, having only one

advocate working after daytime staff leave. There are so many wonderful things that staff would like to do with victims, such as accompanying them on housing search), spend more time on helping victims prep for employment search, accompanying them to appointments, being able to offer support group weekly, helping them move, etc. Some victims need more time with staff than others, sometimes due to having a disability.

In Courage, Manitowoc, WI

Poverty and Unemployment

Poverty due to unemployment and underemployment continues to be a primary challenge faced by victims of domestic abuse. Agencies report financial challenges increasing over the past year and directly influencing clients' abilities to meet their families' basic needs including housing, food, clothing, etc.

Our greatest challenges continue to be assisting victims of domestic violence with their financial barriers. These barriers consist of inadequate income, obtaining and maintaining safe housing, poor credit, past evictions, prior criminal records, as well as limited transportation options. Wages are not increasing with the cost of living, especially if a victim has children to support or debt that has accrued. In many cases, obtaining full-time employment is not as simple as filling out an application – lack of or sporadic work history (so often due to the isolation of an abuser), unreliable or unavailable transportation, and hours that don't have childcare coverage. We also know that maintaining employment can be exceptionally difficult from those still recovering from trauma and abuse.

The Women's Community, Wausau, WI

Immigration Issues and Fears of Deportation

Current policies regarding immigration enforcement efforts have had an impact on immigrant survivors of domestic violence, as well as local domestic abuse program. Programs report trying to help immigrant survivors navigate a lot of uncertainty, and assessing whether there is any risk to them for reaching out for protection. Recent enforcement actions by ICE in several Wisconsin communities have exacerbated tensions. Many programs have consistently noticed that immigrant survivors are hesitant to report abuse because of a heightened fear of deportation due to their immigration status. Advocates have spent an increased amount of time reaching out to immigrant clients, helping them safety plan, and offering increasing support. This has created increased stress on staff and much longer hours.

Immigration and a broken immigration system affect our program. Although this is not a new trend, victims continue to isolate, wait for an advocate to call the police or live in fear of being deported because of their perpetrator. The recent ICE visit to Madison not only created panic among those who qualify for an immigration remedy, but also those who had recently filed their petitions. Their fear that immigration now was going to come for them for sending an alert that they are here without documents became real. Our phone line was busy, and our advocates were in the community picking up victims to take them to the appointments, to court, calming people down and providing support. When victims are terrorized they are less likely to call the police, isolate and/or seek help. This puts stress on our staff as well and creates long work hours

Unidos Against Domestic Violence, Madison, WI.

Mental Health and Substance Abuse

Domestic abuse programs regularly serve survivors who are struggling with mental health and substance abuse issues. Many communities, especially in rural areas report that there are inadequate resources to address the issue. Insurance and financial limitations affect a survivor's ability to seek services in a timely manner. There is also considerable time to wait for appointments for psychiatric support. All these challenges make it difficult for survivors to stay safe, care for themselves and their families, and begin to heal.

The ongoing and seemingly expanding opioid crisis in our community and the increased mental health issues without enough mental health providers in the community have affected our ability to work with victims and keep them on board as we assist them with obtaining housing, through the criminal justice process, etc., towards helping them obtain a self-sufficient life free of violence. There has been an increase in the intensity of violence perpetrated on victims, and an increase in those victims who access services who have more complicated and extensive case management needs. It is difficult, and sometimes impossible, to address DV issues when victims must first get effective assistance with mental health issues, AODA or combatting homelessness or the loss of custody of their children. It often takes a lengthy amount of time before clients gain the ability to focus and stay steady and straight on their path to start breaking down the afore-mentioned barriers and start achieving success in their goals.
