Non-HMIS Prioritization List as of 2.9.2022

Improving the System

- **3 Key Questions:**
 - Do you have the “right projects” in your coalition?
 - Do you have the “right funding” for those projects?
 - Do you have the “right amount” of permanent housing options available for those in need?
- **Right Projects:** What does your current need tell you about what resources or tools need to be changed?
 - Permanent Supportive Housing (PSH) level – ongoing, longer term assistance to address mental health and AODA
 - Rapid Re-housing with Intensive Case Management (RRH ICM) – more intense, flexible case management, follow up
 - Rapid Re-housing (RRH) – light touch case management
- **Right Funding:** CoC & ESG (government funding) are just a few tools in the toolbox. It cannot end homelessness by itself.
 - There are specific things these funding sources cannot pay for (i.e. access to internet, gas cards).
 - There are specific priorities for the government funding, where foundation funding can be flexible or target the areas that remain unmet.
- **Right Amount:** Permanent housing options includes creative housing solutions that meet individual needs
 - Requires active recruitment, education, and support for landlords
 - Requires advocacy and commitment for more housing units available to those with imperfect records and low/no income
 - Requires adding vouchers when possible, targeting subpopulation needs (youth, domestic violence survivors, veterans, etc.), and creating flow between Section 8 and those exiting PSH programs (i.e. moving on or up)

Top 5 Things Needed to End Homelessness

Strong Coalition

- Diverse perspectives including people with lived experience
- Focused on ending homelessness, not managing it
- Willing to be creative and focused on needs of the population

Strong Homeless Crisis Response System

- Ensure that the system includes: prevention, diversion, outreach, intake & assessment, emergency services, housing solutions, and case management
- How much of each service is needed, what performance is expected, what outcomes are reached, what can be improved?
- Enhance coordinated entry system to ensure all people experiencing homelessness have access to prioritization list referral

Commitment to Ending Homelessness

- Case conferencing, problem solving, and seeking permanent housing solutions for everyone identified as homeless
- Enhanced case management with team approach across sectors (including mental health and addiction services & supports), using housing first philosophy, being client centered and trauma informed
- Focus on reducing inflow into the system and increasing outflow with positive client outcomes

Top 5 Things Needed to End Homelessness

Affordable Housing

- Must have places for people to live
- Units must be affordable (below 60% County Median Income, focus on 0-30% County Median Income)
- Units must be accessible and meet basic housing quality standards (safe and sanitary)
- Units must be rent reasonable and within fair market rent for the community

Landlords of Existing Properties

- Willing to work with people who are seeking to end their homelessness
 - Issues with credit or no credit
 - Negative rental history or no rental history
 - Criminal background
- Willing to accept housing vouchers
- Willing to make necessary repairs to bring units into compliance with basic housing quality standards
